

Alberto Llamas González

Software Engineer

alberto.ll.go@gmail.com | +34 618731788 | Madrid, Spain | linkedin.com/in/albertollamass

Skills

Languages:	TypeScript, Java, Python, C/C++, Nodejs
Frameworks:	Vue 3, NestJS, Spring Boot, Pinia, DBT, Flutter
Databases:	BigQuery, MongoDB, Google Firestore
Technologies / Tools:	Kafka, AsyncAPI, GitHub Actions, SonarQube, GitHub Copilot, Figma
Practices:	hexagonal architecture, event-driven architecture, asynchronous communication patterns, CI/CD, Distributed systems, asynchronous communication

Experience

Leroy Merlin

FullStack Developer

September 2023 – Present

Madrid, Spain

- Developed microservices with Spring Boot in an event-driven architecture, integrating systems through Kafka and AsyncAPI contracts.
- Led the adoption of AI tools for engineering productivity defining best practices for spec-driven development and delivering internal enablement sessions to over 150 users on new AI capabilities and usage guidelines, ensuring compliant and effective use of AI tools under enterprise licensing.
- Spearheaded data platform modernization by migrating ETL workflows from Pentaho to DBT for modular and scalable data transformations integrating CI/CD pipelines with Argo workflows.
- Designed and optimized high-volume data pipelines in BigQuery, ensuring data quality, observability, and high-performance processing.
- Led the migration of a production backend from Express to NestJS (TypeScript), implementing hexagonal architecture to consolidate services and reduce technical debt.
- Developed and scaled frontend applications using Vue 3, TypeScript, and Pinia to improve application performance and maintainability.

Education

UNIVERSITY OF GRANADA

Bachelor's in Computer Engineering

2019 – 2023

- GPA: 7.8/10
- Honors: Passed with Honors in Agile Development Methodologies.
- Top 20 Digital Talent
